

SUBODH RAUT

Software Engineer

Pune, Maharashtra, India |7020927253| subodhraulssr7@gmail.com

Software Engineer with 3.5+ years of experience in Java backend development for healthcare and insurance systems. Proven expertise in enterprise application development, production defect resolution, and business rule implementation using Java, SQL, JSP/JSPX, and Oracle. Skilled in healthcare claims processing, validation logic, and code quality improvements in large-scale enterprise applications. Currently expanding expertise in Spring Boot and Microservices architecture.

WORK EXPERIENCE

Software Engineer

Jul 2025 – Present

Infinite Computer Solutions / Pune, Maharashtra

- Resolved 65+ production defects in healthcare claim processing applications using Java and Oracle SQL, enhancing system stability and reducing claim processing delays by 35%
- Implemented diagnosis, procedure, and revenue code validation logic for Institutional and Professional claims, ensuring 100% compliance with business rules and regulatory requirements
- Analyzed and fixed data flow issues across multiple Oracle database tables, reducing claim pricing and validation errors by 40%
- Collaborated with senior developers on enhancement and maintenance activities for enterprise healthcare applications serving thousands of users daily
- Key Technologies:** Java 8, SQL, Oracle DB, Maven

Associate Software Engineer

Nov 2022 – Jul 2025

Infinite Computer Solutions / Bangalore, Karnataka

- Delivered 50+ change requests related to pricing rules, bypass indicators, and exception handling using Java and Blaze Rules Engine for healthcare claim processing systems
- Enhanced Claim Entry and Claim Inquiry applications with field-level validations using JSP/JSPX and JavaScript, improving data validation accuracy by 30% and reducing user input errors
- Led Java 6 to Java 8 migration initiative, resolving 130+ code quality violations (PMD, SonarQube) while maintaining zero production regressions and upholding enterprise coding standards and conducted code reviews and technical documentation, improving code maintainability and team efficiency by 25%
- Key Technologies:** Java 8, JSP, JSPX, JavaScript, Blaze Rules, Maven, SonarQube, PMD

Senior Executive Engineer

Sep 2017 – Sep 2021

Mungi Engineers Pvt. Ltd. / Pune, Maharashtra

- Led 40+ cross-functional engineering and R&D projects, implementing solutions that reduced process inefficiencies by 80%
- Leveraged software engineering best practices to enhance development workflows, delivering high-quality solutions and optimizing processes

EDUCATION

Centre for Development of Advanced Computing (C-DAC)

Advanced Computing - Postgraduate Degree

Mar 2022 – Oct 2022

Savitribai Phule Pune University

Mechanical Engineering - Bachelor of Engineering

Jul 2013 – May 2017

SKILLS

Hard Skills: Java 8, Java 11, Java 17, JavaScript, SQL, Spring Boot, REST APIs, Microservices, JSP, JSPX, JSF, Blaze Rules Engine, Maven, Oracle Database, Git, SonarQube, PMD, Claims Processing, Revenue Code Validation, ICD-10/CPT Codes, Institutional Claims, Professional Claims, Medical Billing, Healthcare Data Standards, Web application development, OOP concepts

Soft Skills: Agile/Scrum, Test-Driven Development, Code Quality Standards, Root Cause Analysis, System Migration, CI/CD, Code Reviews, OOP Concepts, Debugging
